

REMARKS

The claims have been rewritten to overcome the outstanding claim objections.

The new claims are based on Figs. 7 and 8.

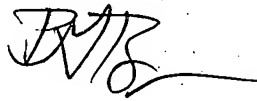

New claims 23-29 are allowable over Chen '671 because Chen et al. do not disclose or suggest the arrangement of fixed and movable contacts and terminal units, or a removable plate in which one of its tips is fixed to a supporting member of a housing, as in claim 23 of the present invention. The secondary references also do not disclose or suggest these features of the present invention.

For the foregoing reasons, applicants believe that this case is in condition for allowance, which is respectfully requested. The examiner should call applicants' attorney if an interview would expedite prosecution.

Respectfully submitted,

GREER, BURNS & CRAIN, LTD.
